

Malton & Norton Neighbourhood Plan

The major objective of the focus groups is to identify the concerns and needs of the community and put forward suggestions to deal with these.

It is important that the people and organisations expressing those concerns are identified and recorded.

Focus group members will have topics they wish to introduce for consideration for inclusion in the neighbourhood plan. It could be boating on the river; street furniture, solutions to traffic issues. Anything goes!

Members may find it useful to complete one of these pro formas for the group discussion on 26th May

Topic description	
In what policy area within Forward Planning: economy, housing or infrastructure will the topic sit.	
Who originally put this topic forward, when and in what context.	
What need does this topic address	
What outcome should this topic achieve.	
Detailed notes on the Topic eg issues being addressed, community concerns or needs, outcome etc. This does not need to be exhaustive as this part of the process will be expanded by the Steering Group and Directions Planning .
